

BETTER SCIENCE. BRILLIANT WATER.®

CUSTOM FILTERS FOR UNIQUE WATER PROBLEMS

Dirt and sediment can be a real issue when it comes to your water. Ensure you're getting the clean, clear water you expect throughout your home with a low maintenance whole house filtration system.

If you have a very specific type of water problem, there's no need to fear. Our EVBF whole home filter can be configured to meet your specific needs.

EVBF backwashing filters are highly effective and consistently deliver quality water for your family. Whether removing chlorine, eliminating iron, or reducing nuisance particles, these filtration systems are configured to address your household's specific water problems.

SYSTEM FEATURES:

- Environmentally safe – no chemicals
- Enhanced performance results in cost savings for chemicals, filter cartridges, membrane cleaning, membrane life, etc.
- Flexible "adjustable cycle sequence" programming – conserves water and maintains well performance
- Multiple media options available for your unique water problems
- High flow rates creating low pressure loss
- Simple to run, efficient to operate

These unique filtration qualities paired with the advanced technology of the EVBF creates the perfect solution to any particles in your water.

EVERY GOOD DAY BEGINS WITH GOOD WATER.

Every component, feature, and innovation of our EVBF water treatment systems has been designed to efficiently bring clear water to you and your family. EVBF units can protect the way your home operates with little to no effort.

1 EXCLUSIVE TECHNOLOGY

- Exclusive features insure consistent water quality
- Advanced programming conserves water and maintains well performance
- Only one internal moving part for easy maintenance
- Battery back-up

2 HIGH-PERFORMANCE MEDIA OPTIONS

ACTIVATED CARBON

- Reduces chlorine and other foul smells or tastes
- Filters dissolved organic compounds
- Exceptionally high capacity and efficiency

TURBIDEX™

- Removes turbid particles by both physical and electrostatic adsorption
- Light-weight material capable of high flow rates

3 QUARTZ UNDERBEDDING

- Delivers high and consistent flow rates
- Provides accurate and efficient cleaning process

BACKWASHING FILTERS (EVBF)

MODEL	EVBF-1044	EVBF-1054	EVBF-1354
